To Support
Classroom Curricula

Resources for Student Writers and Researchers

On the Dolores Huerta High School Library Wiki Web site Resources page, students will find links to:

Ready Reference
Students will find links to online dictionaries, encyclopedias, and search engines.

Databases
We have subscribed to two databases. We also encourage students to use their public library card to access a variety of databases provided by the Pima County Public Library and the Arizona State Library, Archives, and Public Records.

Lesson Plan Resources - Pathfinders
Along with classroom teachers, we build Internet pathfinders to help students access the resources they need to be successful. Our goal is to help students use information effectively.

Writing Resources
Students will find links to online citation makers and Turnitin.com, the portal where DHHS students submit their writing assignments.

Plagiarism
There is also a reminder about plagiarism. We teach students to cite their sources and to "make" rather than "take" notes!

your partners for S U C C E S S!

Literacy4Life @yourlibrary

A Critical Component in 21st Century Education

The mission of the Dolores Huerta High School Library is to co-teach with classroom teachers and specialists to ensure that students, faculty, staff, and families are effective users and creators of ideas and information.

Because student learning is the bottom line.

How the School Librarian can help you:

Planning:
- I can brainstorm project ideas, instructional strategies, and assessment tools with you.
- Collaborate on planning units, including research projects, with you.

Teaching:
- Partner with you to co-teach and co-assess lessons and units of instruction.
- Teach information literacy skills, including Web searching and use of our databases.
- Provide booktalks for students to encourage reading.

Resources:
- Borrow materials from other libraries.
- Purchase materials to support your curriculum.
- Provide mentorship with Web tools, databases, Internet searching, and other topics.
- Provide guidance related to copyright and fair use of information.
- Help you create wiki pages for your class or club.

.

How You Can Help:

1. Plan with me before bringing your class to the library for a project.
2. Reserve class periods on the library schedule as far in advance as possible.
3. Invite me to participate in team planning meetings.

Electronic Databases:

Readers' Guide Online:
Use this comprehensive database to retrieve full-text articles on current events and popular culture.

TeachingBooks.net:
This portal provides access to online resources, including short movies, audio book readings, book discussion guides, interviews, and more, for children's and young adult book authors and illustrators.

Pima County Public Library Portal:
PCPL and the Arizona State Library, Archives and Public Records provide databases that students can access with a public library card and pin number. Some frequently accessed databases:

- ❖ Biography Resource Center
- ❖ EBSCO Host
- ❖ EBSCO Host Español
- ❖ Literature Resource Center
- ❖ Opposing Viewpoints
- ❖ SIRS Knowledge Source

Access to Databases at:

Standards for the 21st Century Learner

Reprinted with permission from the American Library Association

Learners use skills, resources, and tools to:

- ❖ Inquire, think critically, and gain knowledge.

- ❖ Draw conclusions, make informed decisions, apply knowledge to new situations, and create new knowledge.

- ❖ Share knowledge and participate ethically and productively as members of our democratic society.

- ❖ Pursue personal and aesthetic growth.

Online: http://www.ala.org/aasl/standards

In our library, we co-teach lessons and units of instruction that develop students' learning and critical thinking skills, information media and technology skills, and life and career skills (from the Partnership for 21st Century Skills).
